Residents reported that drivers had been threatening and abusive. Residents asked the Council for information on the long and short-term solutions to these issues. Cllr. Kidd replied that the Parish Council was not the Highways Authority and could not make highways decisions. Cllr. Kidd also said that the Parish Council was very aware of the difficulties being experienced by Hollinwood Road residents and that the Council was trying to provide as much information as possible. Cllr Kidd highlighted that the permanent lights at Redhouse Lane would be "on demand" and not sequenced like the current temporary lights, which were adding to the traffic problems. He said the temporary lights were on a 3-way cycle in order to allow pedestrians to cross the A6. Residents pointed out that the signage had been put up too late by Cheshire East Highways. Cllr. Kidd informed the meeting that Cheshire East Highways, the Parish Council and Hollinwood Road representatives had met to discuss the long-term options and that all had agreed to discuss options, such as closing off the road, after the new Redhouse Lane lights were in operation. Cllr. Davenport confirmed that this would involve a full resident consultation. Residents raised concerns about the A6 road closure scheduled for Sunday 16th July and Cllr. Kidd assured the meeting that the Parish Council would request Cheshire East Highways to manage the closure more effectively and position the road block nearer the Fountain and not by the Co-op. Cllr. Kidd gave the Council's assurance that it would look at the short-term issues on Hollinwood Road and would involve residents in the long-term plans.</p> <p>A resident from Redhouse Lane raised the issue of speeding drivers on the lower sections of Redhouse Lane. The resident said drainage issues meant the road was wet and slippery and asked if money from the Persimmon development was available for traffic calming.</p> <p>A resident asked why Redhouse Lane needed traffic lights on to the A6. Cllr. Kidd replied that it was a condition of the development to create a safe exit on to the A6.</p> <p>Residents requested that a separate meeting be arranged with</p>
